EDUCATION

VTU

Bachelor Of Engineering Computer Science *GPA: 7*

Bangalore

Jul 2014 - Jul 2018

WORK EXPERIENCE

Target

Senior Software Engineer

Bengaluru

Feb 2021 - Present

- I worked with and led cross-functional teams in developing and implementing innovative solutions for Target.com. My role focused on enhancing the website's scalability and speed, ensuring optimal performance for millions of users. By leveraging modern technologies and best practices, I drove initiatives that improved user experience and streamlined development processes. My leadership fostered collaboration and innovation, positioning the website to meet the dynamic demands of the e-commerce landscape..
- Technology Expertise: Leveraged React and Next.js to develop high-performance, scalable web applications, enhancing user experiences across platforms.
- Team Leadership: Led a team of developers in agile environments, mentoring junior engineers and promoting best coding practices and design patterns.
- Performance Optimization: Implemented strategies for code splitting, lazy loading, and server-side rendering to improve site speed and responsiveness.
- Collaboration: Worked closely with UX/UI designers, product managers, and stakeholders to translate business requirements into functional and engaging web features..
- Testing: Quality Assurance: Established automated testing frameworks to ensure robust, bug-free releases, contributing to the overall quality of the product..
- Continuous Improvement: Stayed current with industry trends and technologies, advocating for innovative solutions that drive project success and enhance team efficiency.

Atos

Web Engineer

Chennai

Oct 2018 - Jan 2021

- Development Focus: Specialized in developing and optimizing web applications using React.js for our B2B e-commerce platform..
- User Interface Design: Designed responsive and intuitive interfaces to enhance user experience and engagement..
- Component Implementation: Developed reusable components that improved site performance and maintainability..
- Cross-Functional Collaboration: Worked closely with product managers, designers, and back-end engineers to translate business requirements into efficient code.
- Performance Optimization: Implemented techniques to enhance application speed and responsiveness. Coding Standards: Contributed to maintaining high coding standards and best practices within the development team.

SKILLS

Technical Skills: Javascript, Typescript, HTML & CSS, React & Next, Tailwind , SCSS , Styled Components
Cloud: GCP, Docker + K8, CICD
Design: Figma, a11y first design
Testing: React Testing Library, Cypress, Jest
Observability: Grafana, Kibana, Application usage tracking
Others: Data Structures, Algorithms, System Design
